conditions specified in the Government order referred to above. His contention is that the land should be given to him and be done in the case of the alienated lands of the Government and the land and house and other things which are not agreed to be sold or given to the Government for the land which is not being sold. No other information is available in this office about the land which is not being sold and belonging to the institution of the Government.

agreed to the terms offered by Government on 30-8-1921 but have subsequently expressed their unwillingness to accept them. They have produced certain documents in support of their statement -- that the lands were alienated more than 100 years ago. These -- documents cannot be considered now since they were not produced in 1914, when the parties gave a statement before the Amildar as to the validity of the alienation.

It is seen from the records that the alienees are paying to Government the assessment on these lands together with cesses and this is credited towards theodi of Rs.10-12-3 on all the inam lands, the balance if any being recovered from the arviak of the temple who is in possession of the other inam lands.

5 As observed by Government the alienation having been made subsequent to 1853 it is a fit case for resumption. The Deputy Commissioner's recommendation may be kindly sanctioned.

6 The irregular records received with the Deputy Commissioner's letter are herewith submitted for perusal and kind return.

I have the honor to be,

Your most obedient servant,

CS Balasundaram
